

Implementation Manual

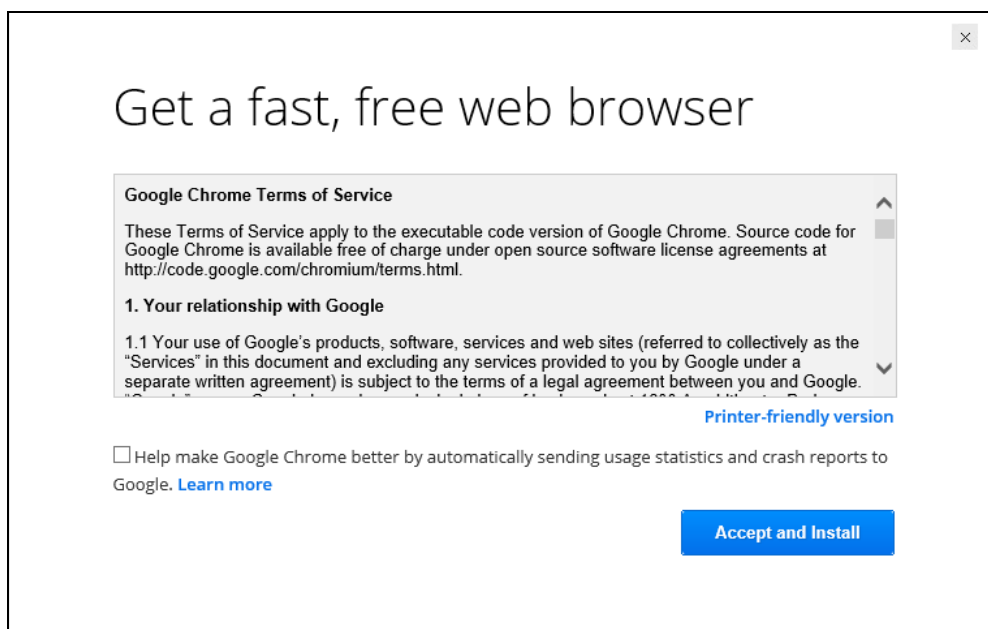

Installation Manual

The implementation manual includes the steps to install Google Chrome and Microsoft WebMatrix on the Windows platform. In addition, it includes the steps to add the iPad/iPhone simulator in the Microsoft WebMatrix.

Installing Google Chrome

To install Google Chrome, you need to perform the following steps:

1. Open the following link:
 - https://www.google.com/intl/en/chrome/browser/?hl=en&brand=CHMA&utm_campaign=en&utm_source=en-IN-ha-bk&utm_medium=ha&utm_term=%2Bchrome%20browser
2. Click the **Download Chrome** button. The **Get a fast, free web browser** dialog box appears, as shown in the following figure.

The Get a fast, free web browser Dialog Box

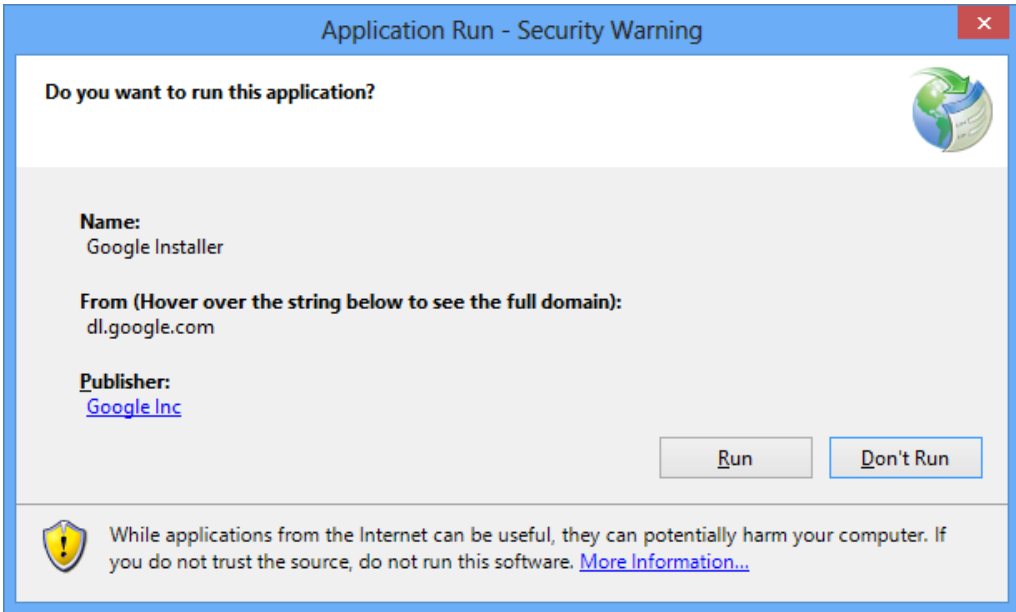

3. Click the **Accept and Install** button. The **Launching Application** message box appears for a while.

Note

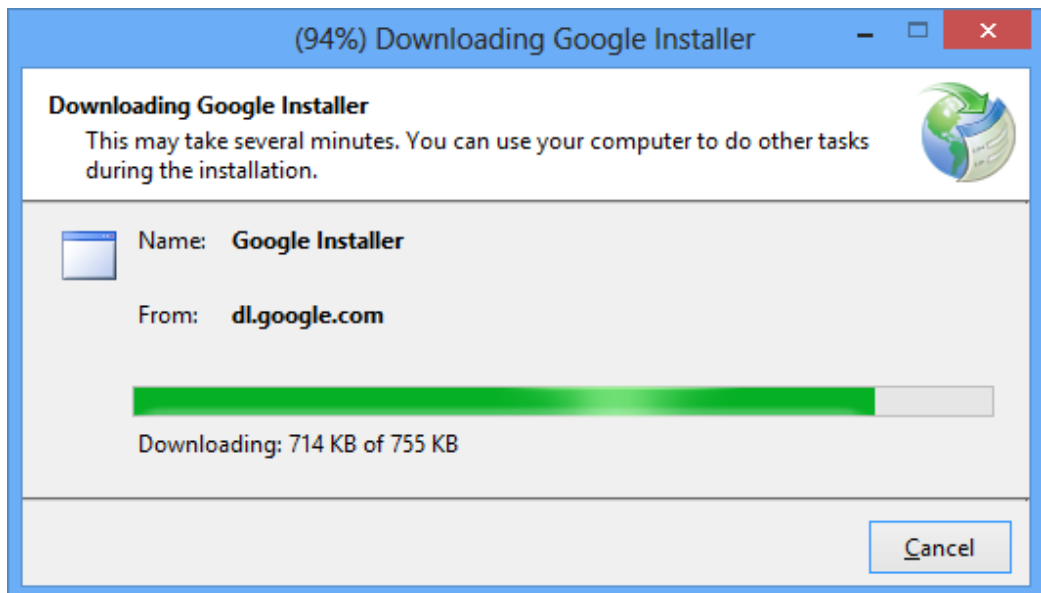

*If the **User Account Control** dialog box appears, you may need to specify your credentials and click the **Yes** button.*

After a few seconds, the **Application Run – Security Warning** dialog box appears, as shown in the following figure.

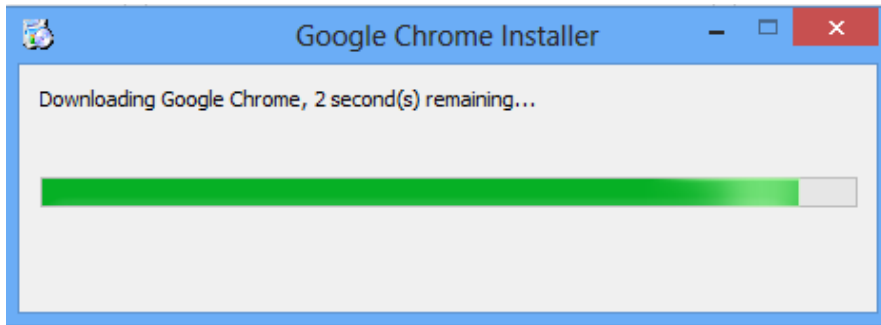

The Application Run – Security Warning Dialog Box

4. Click the **Run** button. The **Downloading Google Installer** window appears, as shown in the following figure.

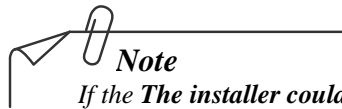

The Downloading Google Installer Window

After a few seconds, the **Google Chrome Installer** window appears, displaying the progress of the downloading task, as shown in the following figure.

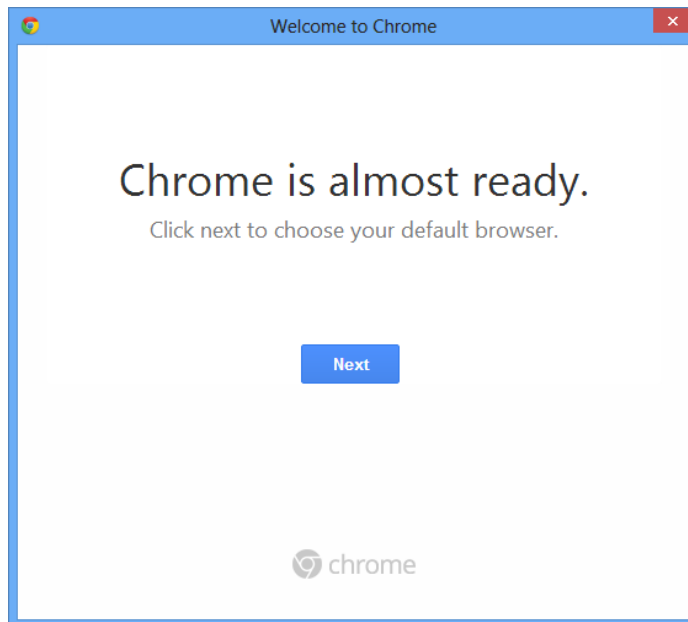

The Google Chrome Installer Window

Note

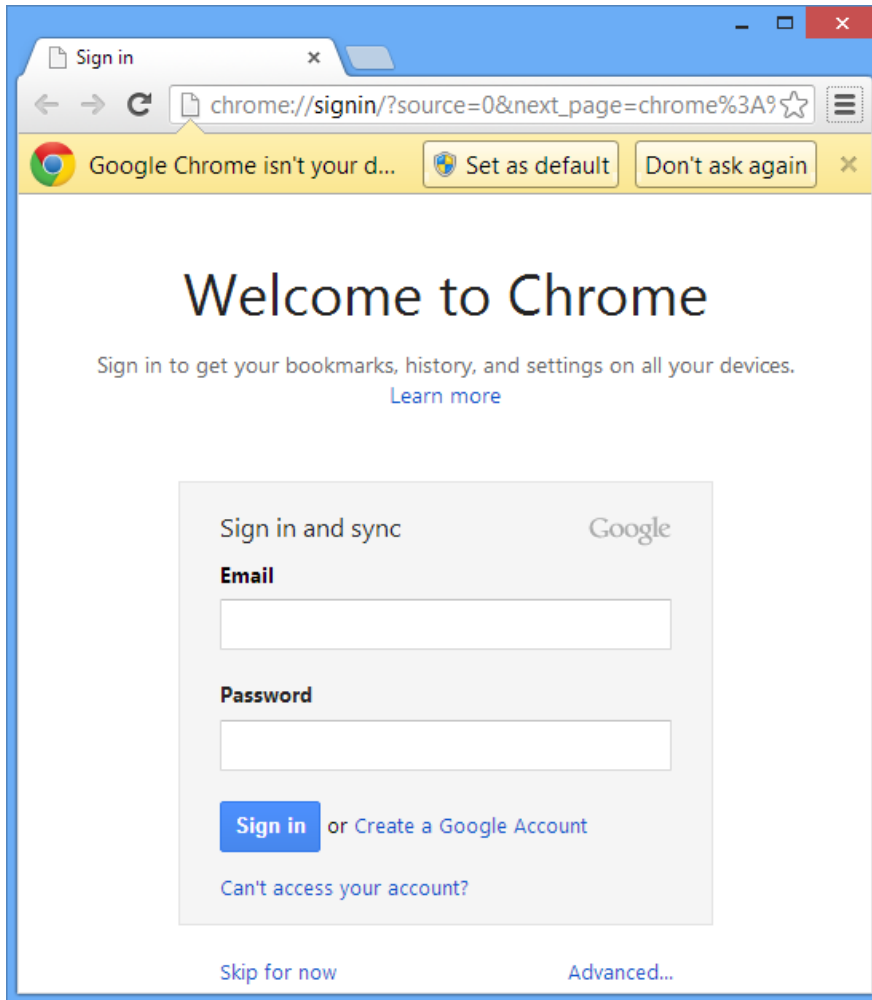

*If the **The installer could not connect to the Internet.** message appears, then ensure that your computer is connected to the Internet and your firewall allows GoogleUpdate.exe to connect then **try again.** message appears, then ensure that you are connected to the Internet and the firewall is turned off.*

The moment download process is complete; the **Welcome to Chrome** dialog box appears, as shown in the following figure.

The Welcome to Chrome Dialog Box

5. Close the **Welcome to Chrome** dialog box. The **Welcome to Chrome** page appears in a Web browser, as shown in the following figure.

The Welcome to Chrome Page

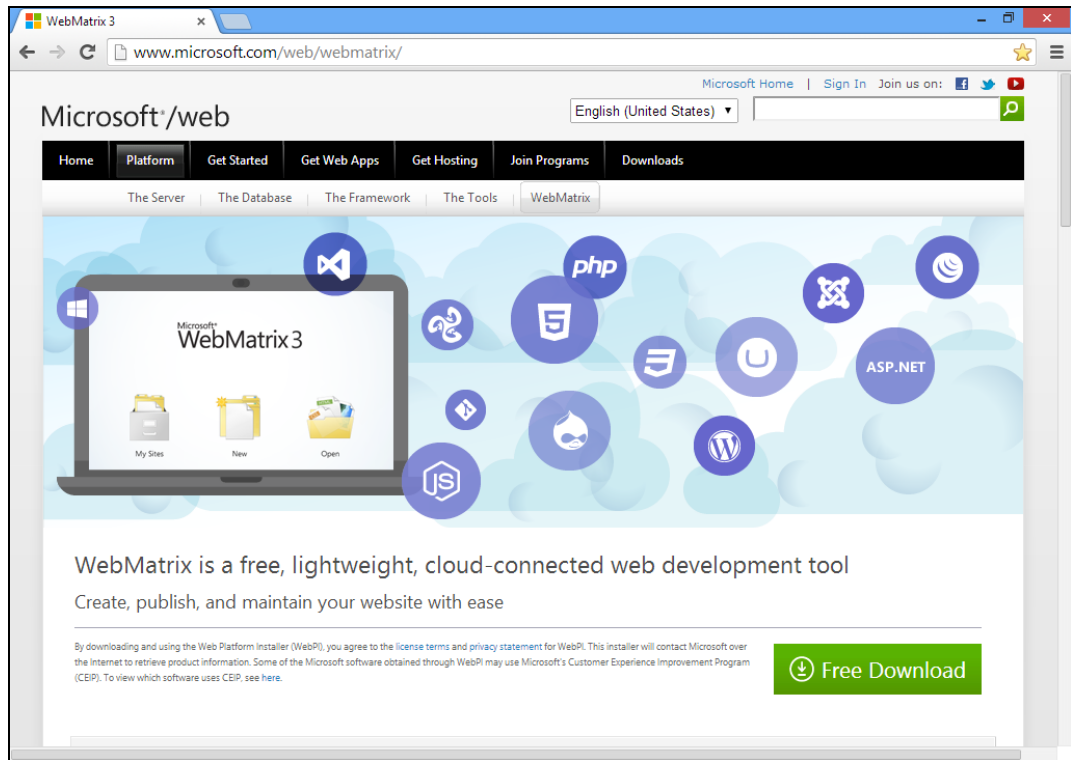

6. Close the Web browser.

Installing Microsoft WebMatrix

To install the Microsoft WebMatrix software, you need to perform the following steps:

1. Open any Web browser.
2. Type the following URL in the address bar of the Web browser to download the **WebMatrixWeb.exe** file:
 - <http://www.microsoft.com/web/webmatrix/>

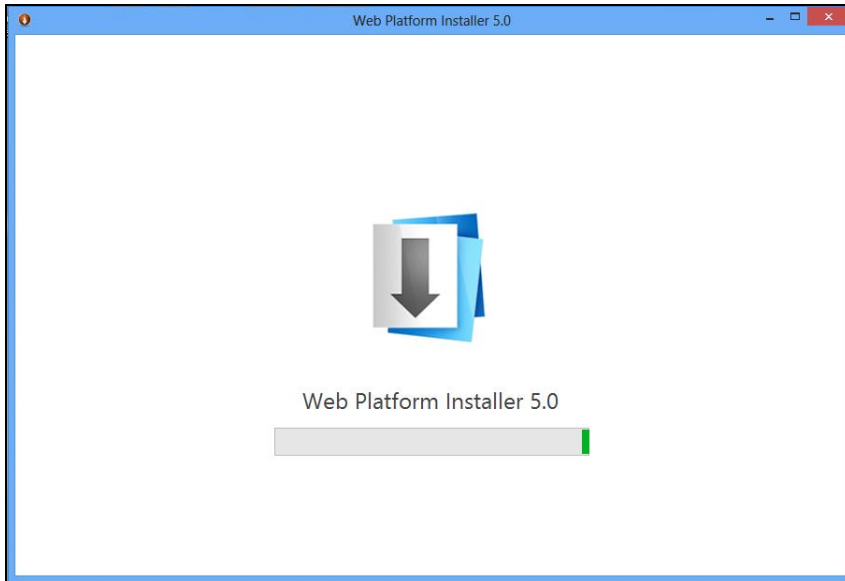

After a few seconds, the **WebMatrix3** Web page appears, as shown in the following figure.

The WebMatrix3 Web page

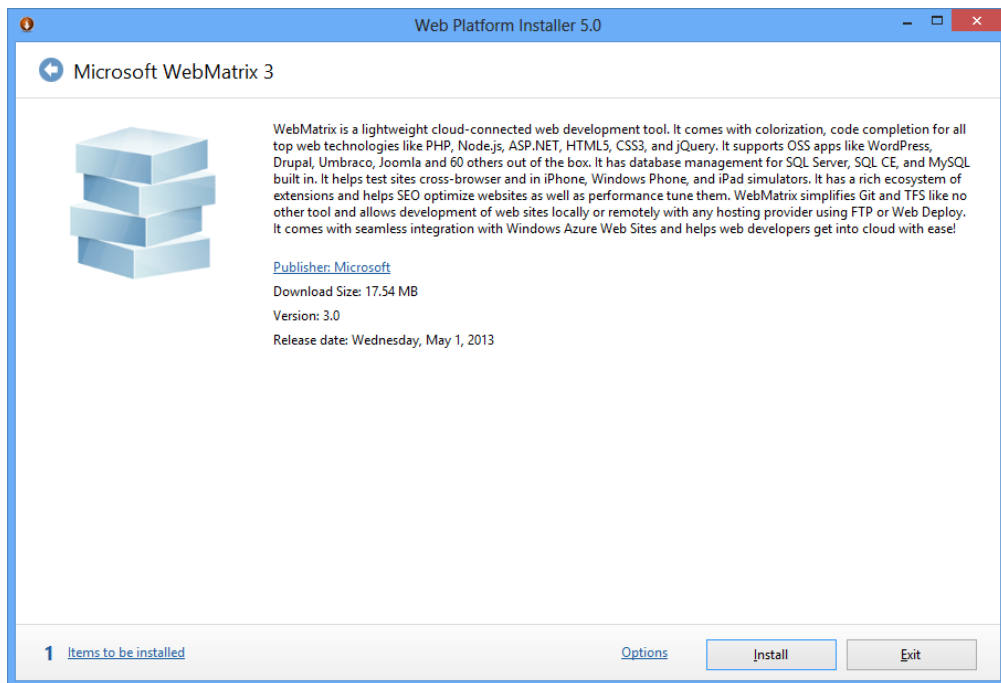

3. Click the **Free Download** button to download the **WebMatrixWeb.exe** file. After a few seconds, the **WebMatrixWeb.exe** file will download to the **Downloads** folder or other specified location.
4. Browse to the location of the **WebMatrixWeb.exe** file.

5. Double-click the **WebMatrixWeb.exe** file to start the setup. The **Web Platform Installer 5.0** wizard appears, as shown in the following figure.

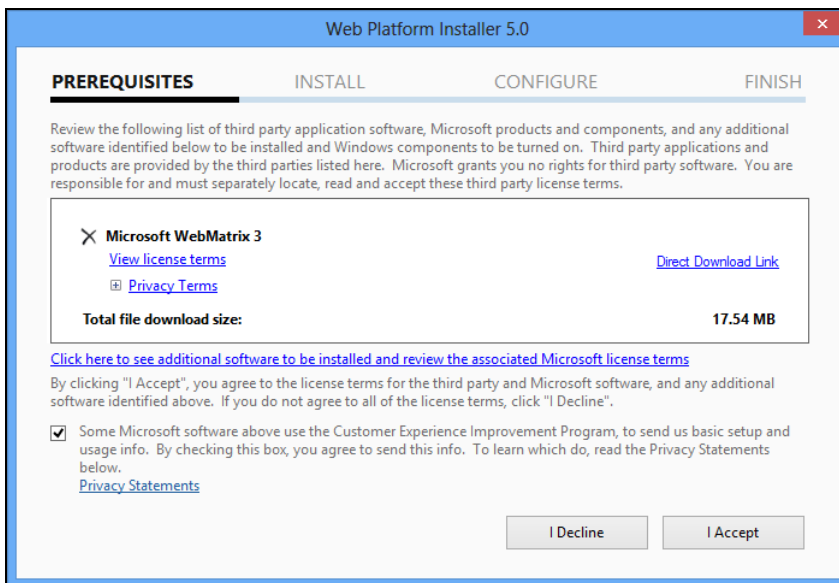

The Web Platform Installer 5.0 Wizard
